

William Bjerregaard Winkler

22. February 2024

RECOMMENDATION

To Whom It May Concern,

I am pleased to provide a professional endorsement for William Bjerregaard Winkler, who served as a Junior Systems Developer within the Application Operations unit at Systematic A/S from February 2023 until end of January 2024.

During his tenure, William demonstrated proficiency in a variety of areas including monitoring and alerting, automatization, refactoring, and implementing best practices utilizing a diverse array of tools and technologies such as Graphana, Kibana, Elasticsearch, Prometheus, Ansible, and the Linux platform.

William seamlessly integrated into our team, swiftly acquainting himself with our tools and operational frameworks. He is fast learning and have a meticulous and detail-oriented approach. Notably, he identified improvement opportunities in the infrastructure for one of our largest solutions. He is not afraid to propose and try new development methodologies while ensuring validation before implementation.

William possesses good communication skills, enabling him to present his ideas to various stakeholders within the organization. Also, his collaborative nature contributed positively to our team dynamics.

As William's manager at Systematic, I highly endorse him and extend my best wishes for him in the future.

kind regards

SYSTEMATIC
